Education

IES IPS Academy Indore, M.P.
Bachelors of Technology in CSE, Spec. in Data Science *Oct. 2021 – July 2025*
CGPA : 8.49

Professional Experience

Full Stack Developer *August 2025 – Present*
SkillSync *Remote, Singapore*

- Led backend migration from Node.js to Java (Spring Boot), improving system scalability, maintainability, and long-term performance.
- Designed and implemented RESTful APIs in Spring Boot for core business workflows, including user management, authentication, data processing, and service integrations.
- Architected and optimized MySQL database schemas, handling relational data models, migrations, indexing, and query performance tuning.
- Refactored and enhanced frontend architecture, implementing cleaner component structures, reusable UI logic, and improved state management for better user experience.
- Collaborated closely with product and engineering teams to translate requirements into scalable full-stack solutions, ensuring smooth backend–frontend integration.
- Handled end-to-end feature development, deployment support, and bug fixes across both frontend and backend in a remote startup environment.

Projects

Cogent Live Link – Source Code

- Built an autonomous terminal coding agent with an iterative agent loop, streaming LLM responses, and filesystem, shell, search, and Git tools for model-driven software development.
- Implemented a provider-agnostic architecture with Anthropic, Gemini, and Groq, alongside permission controls, persistent sessions, context compaction, and interactive/non-interactive execution modes.

Opal SaaS Live Link – Source Code

- Built a full-stack recording SaaS with a Next.js web app and Electron desktop client for screen recording, video management, sharing, and real-time cloud uploads.
- Integrated OpenAI for AI-powered transcription and summarization, with Express.js, Cloudinary, PostgreSQL, Socket.io, Clerk authentication, and Stripe billing.

Corina-AI SaaS Live Link – Source Code

- Built an AI-powered sales chatbot with Next.js for real-time conversations, automated appointment booking, lead management, and customizable chatbot workflows.
- Integrated OpenAI, Stripe, Clerk authentication, secure file uploads, email marketing, and plan-based feature controls with PostgreSQL-backed application data.

Technical Skills

Languages: JavaScript, TypeScript, C/C++, Java, Python, R, SQL (Postgres)
Frameworks & Libraries: React.js, Next.js, Node.js, Prisma, Tailwind CSS, Material UI, Spring Boot, Hibernate/JPA, Pandas, NumPy, Scikit-learn
Databases: MySQL, PostgreSQL, MongoDB, SQLite, Supabase, Firebase
Developer Tools: Git, CI/CD, Jupyter Notebook, Google Colab, Power BI, Tableau, Maven, Apache Tomcat, IntelliJ IDEA
